

# Petrol Treatment

These TOTAL Petrol Treatment's detergent properties flush carbon deposits in the carburetor and injection nozzles. It keeps the fuel-supply circuit (i.e. the tank, combustion chamber, valves, injection nozzles and carburetor) clean. Over time, using this product on a regular basis will shield your engine from corrosion and improve petrol consumption, cutting by polluting emissions.

## Product & Conditioning

Pack	Can 250 ml
Pack color	Grey
Pack dimensions	20,5 x 5 cm
Closure	28 mm cap with protector and child proof
Cap color	Black
Pack per box	12
Dimensions box	20,7 x 15,7 x 21,4 cm

## Product Advantages

**Cuts fuel over consumption**

**Smoothens engine start-up and eases mechanical stress**

**Removes deposits from the injection nozzles and combustion chamber**

**Cuts polluting emissions**

No hazardous product.
