

Radiator Sealant

TOTAL Radiator Sealant is a simple and effective solution to radiator leaks. It is used in cars, trucks, agricultural vehicles and heavy construction machinery. It plugs leaks permanently and restores circuit watertightness and also, rusts inhibitors in addition to protect the system from corrosion. It is compatible with antifreezes and coolants. Harmless to radiator hoses, gaskets and iron alloys.

Product & Conditioning

Pack	Can 300 ml
Pack color	Grey
Pack dimensions	14 cm
Closure	28 mm cap with protector
Cap color	Black
Pack per box	12
Dimensions box	26,4 x 20 x 15,4 cm

Product Advantages

- Stops all leakages
- Restores cooling-circuit
- Anti-corrosion protection
- Compatible with seals and iron alloys

No hazardous product.
